

GROUP 3: ASSETS WORTH MORE THAN \$2,200

Workshop 3: Our Choices

Yin Leeda

I'm 14 and I live in Cambodia. I live with my 2 younger brothers and look after them. I start the day by cleaning the house and then get us all ready for school. My mother works as a waitress in a nearby city so I am left here to run the house. At first I missed my mother but now I am so busy with my studies. Only at night do I have time to think about her.

[See Yin Leeda's video here](#)

"My studies are going well. If I had a chance I would like to go to university but if I can't finish school, I will stay at home growing vegetable and raising pigs and chickens."

Cambodia?

How does poverty affect children?

What support does Yin Leeda need to stay in school?

How does education affect the chances of poverty in adulthood, especially for girls and women?
