

GROUP 3: ASSETS WORTH MORE THAN \$2,200

Workshop 3: Our Choices

Shefena Gebre Egziabeher

I live in a remote region of Ethiopia. I am in the sixth grade and my favourite subjects are maths and English. Not only am I student but I am also a teacher on the 'Getting Ready for School' Programme. This programme helps 4-6 year olds to prepare for primary school. For one hour a week I tutor a small class on reading, writing and counting.

[See Shefena's video here](#)

"In the beginning my students were shy but they have made a lot of progress. It makes me really happy, I get to focus on my students and it's helped me to realise that I want to be a teacher."

Ethiopia?

Is education a right for all children in Ethiopia?

Do boys and girls have equal access?

Name a target you would like Education in post 2015 to achieve?

Are you a leader or an activist in your community? Why/Why not?
